Sagar Institute of science and Technology
*Bhopal, MP*

### Intermediate
The Earth Public School
*Patna, Bihar*

### Matriculation
Adarsh Vikas Vidyalaya
*Patna, Bihar*

## WORK EXPERIENCE

### ReactJS Developer
Digicentr
*03/2022 - Present*
*Achievements/Tasks*

- Collaborated with cross-functional teams to design, develop, and implement user-centric web applications using ReactJS.
- Played a significant part in the creation of Tap-savvy, which allows users to design both digital and traditional visiting cards based on their needs. Your card can be as individually designed as you like.
- Played a key part in the development of the Experiment Web App, which allows students to schedule appointments for experiments and institutions to report on the status of ongoing studies. and administration's only duty is to ensure that the process runs smoothly.
- Utilized modern JavaScript libraries and frameworks to enhance UI/UX and streamline application performance.
- Integrated RESTful APIs to fetch and display dynamic data, improving real-time content updates.
- Implemented responsive design principles, ensuring consistent user experience across various devices and screen sizes.
- Optimized application code for performance.
- Participated in code reviews, providing and receiving constructive feedback to maintain code quality and best practices.

### Personal Projects
Expense Tracker App
*Achievements/Tasks*

- The Expense Tracker App allows users to track their income and expenses. It provides an intuitive interface to add and categorize transactions, view a summary of their financial activities, and monitor their budget over time.
- Technical Stack: HTML, CSS, JavaScript, Ant Design, ReactJS , NodeJS and MongoDB.
- Contribution: I have used local storage for storing tokens to make them more secure and authenticate the user before they register and then login.
